In June 1948, brigades of the Indian Army of the cause of the anti-fascist
revolutionary people, subject to the direction of the
anti-fascist specialists, there was general dissatisfaction in the Indian
army. There was a inclination felt by certain of the Indian
army to submit to other battalions in the
cause of liberation. The Indian Communist Party, respecting the laws
of the uniform, demanded that the adherents of the aforementioned
Indian army should become members of the Indian Communist Party
and serve it too. Certain leaders of anti-fascist orientation had
been instrumental in spreading this view at once, in an effort to
make the Indian army a part of the Indian Communist Party.

SUMMARY P INFORMATION

SUBJECT: Clandestine political organization in British/U.S. Zone, F.T.T.

1. A reliable informant of this office recently reported the following information concerning the existence of a clandestine political organization in British/U.S. Zone, F.T.T. (Exhibit 11: "November 1950." (B-3))

2. Attached to this report is an original membership card of an organization named "Movimento d'Azione Trieste Italiane (M.A.T.)". This membership card was presented by GUGLIELMO ALFREDO, a refugee from YUGOSLAVIA, residing at Via Galanti 72, Trieste, c/o the family Guglielmo.

3. Guglielmo is a member of the organization under the following circumstances. As a Yugoslav refugee, GUGLIELMO found it difficult to obtain a travel permit to visit ITALY. With this problem in mind, he contacted PHILCH, Milan, who resides at Via Milano 7, Trieste, and related his desire to visit ITALY during the difficulties he was encountering. During the conversation, PHILCH stated that if GUGLIELMO would become a member of an Italian movement in Trieste (M.A.T.), he would receive assistance in obtaining travel documents for ITALY. It was agreed that GUGLIELMO would join the organization and that he would submit a written application and his personal particulars to PHILCH. On 25 July 1950, GUGLIELMO instructed PHILCH to contact MELINI, Giovanni, at "Ufficio Garibaldi" in Trieste. At this meeting, on 25 July 1950, GUGLIELMO was handed the accompanying membership card after paying a membership fee of 5,000 lire. According to a statement made by GUGLIELMO, the 5,000 lire membership fee is paid for propaganda work done by the M.A.T. organization.

4. After joining the movement, GUGLIELMO, Alessandro, was informed by MELINI that he would be given a letter of introduction

to the Italian liaison in Trieste for the purpose of obtaining an entry visa for him. Main also stated that Chief Inspector G. G. G. Umberto, of the ... Police, C...D., at Via Ottobre, is an influential member of the movement and that he would take care of Lucia's problem.

5. It is reported that ... membership cards are also being issued by Mario fu Giovanni, who is allegedly the leader of the movement. (See J. ... dated 12 June 1949, Ref. No. S-4701, regarding an incident initiated by M.S.I. and Blocco Italiano members in which J. B. N. participated.) It is further reported that G.N.A.T., Carlo, who is president of the M.S.I. in Trieste, is one of the exponents of the S.A.T.I. movement and a close friend of Mario. The Informant also related that the S.A.T.I. movement is represented in the Yugoslav Zone, F.T.L.

6. Although the exact objectives of the movement are now unknown, it appears that one of its aims is to influence the continuation of the two sides of the A.R.I. towards participation in a movement which would favorably affect the return of the A.R.I. to Italy.

7. This information concerning the S.A.T.I. movement will be forwarded as soon as it is received upon its receipt.

harmful to attack and if this is necessary, it should be done only in a constructive manner. It should be thanked whenever it is possible, especially when they do things of a beneficial nature for the peoples. At the same time it was announced that the Italian Government should not be attacked. The French should concentrate at this stage just the Italian happens is at this time is characteristic. This by default will also be able to reflect the progress of the war if the forty-line pattern is similar.

3. In regard to Berlin, the French position is that in Urgent the bombing of Berlin should be discontinued because of the new situation. They fear that this may be the last chance that exists. This might be an opportunity to put a new conduct of policy on the part of France. The U.S. is referred to as being the most important factor in the present situation.

4. The pattern of conduct is discussed. ERIC said that the Italian is changing to the 40-line pattern. In Urgent, the first news received from Italy concerned the Italian situation. It was stated that the Italian had reported him to Cardinal Lester. Lester had been recalled and asserted he had given all the leaves to the P.R. according to ERIC. This gave very conveniently temporary "leaves" which from Eric, the reports received indicated that will be replaced by a 40-line pattern which will be followed by another 40-line pattern. The strategic plan in the fight against the Communists in Urgent. It further stated that it is possible that the Italian will be replaced by the Vatican in Urgent about this date.

5. Mission to the Communists in the South China situation. The Chinese Communists are continuing their efforts to obtain recognition of their government unsuccess. The delegation on the admiral and the U.S. in acting under contract orders of the Chinese Communist Party has never yet been able to do so. It is notedly so free that it's movement express the will of the Chinese people to govern themselves in.

RECORDED INFORMATION

Soviet Agriculture Delegation

1. The following information was derived from a confidential Source
on 27 November 1960. (C-1)

During the month of October 1960, a Soviet Agricultural Delegation consisting of forty-five persons arrived in BULGARIA. The delegation was headed by the Vice Chairman General Administration of Hydric Irrigation in the USSR, Colonel G. V. Kostinovich FILIALEV. Also included in the delegation were the heads of the Soviet "Colkor" and "Govkor", the Director of the Collective Agricultural Stations and numerous "Bureaux of Soviet Agriculture". During its sojourn in BULGARIA, the delegation visited the larger collective farms where the delegates were especially interested in various collective agricultural organizations. These delegations were furnished "advice" to the grain farmers which would enable the latter to increase agricultural production. The advice, it appears, was never fully accepted because most of the delegation were "conservative" members in socialist countries. Newspapers did state that the delegations advised the Bulgarians that "soil is a very important factor for the development and life".

On 6 October 1960, the delegation arrived in Sofia and conferred at length with the Bulgarian Minister of Agriculture. Delegates consulted upon various aspects of Bulgarian agriculture and offered "advice" on irrigable lands to the Ministry. The Bulgarian Minister of Agriculture, Tsigarow, and Vice Minister at this conference along with various other Bulgarian agricultural officials, S. IVANOV, thanked the visiting delegation for its assistance and advice and stated that the Bulgarian農民 would be carefully studied and acted upon so that Bulgarian agriculture would be encouraged upon a "farmer and co-operative basis". This apparent enthusiasm does not coincide with the present attitude of Bulgarian farmers who are forced to resort to barter and deal in the black market in order to survive.
